# Introduction

---

Established in 1989, Legal Services Agency (LSA) is a Scottish Law Centre and Charity committed to tackling inequality, defending legal rights and using the law to effect social change. We focus on supporting individuals in vulnerable circumstances who would otherwise find it difficult to access legal advice, assistance and representation. We achieve this by offering high-quality legal advice and representation, raising awareness of legal rights and campaigning to challenge legal system failures.

We take pride in using a person-centred approach and drawing on our expertise in social welfare law. We address complex legal issues to combat disadvantage and discrimination, empowering individuals to assert their legal rights and reach their full potential. Our service operates on a broad scale, covering all of Glasgow, with a dedicated base in Inverclyde, and extending support to communities throughout Scotland.

## Strategy Review

---

The strength of our service is based on the collective effort of our professional staff team, our board of directors, and the many volunteers all of whom contribute to the work of LSA. We rely on our funders for essential financial support and our partners in the field with whom we work closely. And, ultimately, we ground our work through our clients who trust us with their legal challenges. Their trust and confidence in our work enable us to deliver crucial services.

Our strategy for the next three years has been developed by reflecting on the delivery of our services over the past few years through consultation with our team, Board of Directors and our wide range of stakeholders. Our future priorities are influenced by emerging legal needs, the external policy landscape and the growing socio-economic challenges facing individuals and communities.

# Key lessons:

- We recognise that our organisation must continue to evolve effectively and efficiently to meet these challenges. We are committed to maintaining high standards, taking ownership of our promise to deliver outstanding service, and ensuring our actions are informed by learning and evidence.

Our strategy is not just about maintaining what we do, but about evolving to meet the growing and changing needs of the communities we serve. It reflects our commitment to adapting to new challenges while staying rooted in our core values of social justice and empowerment. Looking ahead, our focus will be on consolidating our existing services, expanding our reach, deepening our impact, and ensuring that those facing disadvantage can access the expert legal support they deserve. It emphasises our commitment to improving access to justice, influencing policy, and fostering a thriving, inclusive workplace. By prioritising collaboration, innovation, and the power of storytelling, we aim to enhance our impact and visibility within the community we serve. This commitment is reflected in the words of our client seeking advice on a dampness disrepair issue, whose experiences illustrate the vital role we play in their lives:

“I would like to sincerely thank your team for the incredible support [...] I will be forever grateful. [...] Thank goodness that you exist to help others in dire situations.”

Together, we will harness our collective expertise and passion to drive meaningful change to address the effects of poverty, disadvantage and inequality while meeting the needs of those we serve today and establishing a strong foundation for future growth. With dedicated efforts and a shared vision, we are ready to make a lasting difference in the lives of individuals and communities across Scotland. A previous Board Director eloquently expressed their appreciation for the impact our team has on those we serve:

“I would like to thank the staff for the job they do, the lives they improve and the fights they take on, on behalf of those who have no one else to fight for them.”
